Dear Madhavi:

Congratulations! We are delighted to inform you that through a competitive review process, we have selected you as a recipient of the Sara and George McCune Scholarship. Your scholarship is designated for your participation in the Summer 2019 Mixed Methods Workshop to be held on June 19-21, 2019 at the University of Michigan in Ann Arbor, Michigan, USA.

This scholarship offers *up to* \$3,000 to cover the workshop registration fee, your travel to and from Ann Arbor, and lodging the day before and during the workshop (up to 4 nights, depending on the travel days). The registration fee covered by the scholarship is \$900 for student and \$1,200 for non-student which includes course fee, breakfast and lunch on workshop days. Please note that you will be responsible for any lodging or meals outside of the workshop as described above. The award is not transferable to another individual or to another workshop.

Please let Satoko Motohara (smotohar@umich.edu) know as soon as possible if you will be accepting this scholarship, and she will instruct you as to how to register for the workshop. If we do not hear back from you by April 1, 2019, we will offer your spot to another individual. We look forward to hearing from you soon.

Sincerely,

Michael D. Fetters, MD, MPH, MA

The Most Admired Women In Educational Sector For India 2022 |

Dr. Madhavi Dharankar

Opening Education for a Better World

The sudden ascent of technology support in education has brought many new challenges for educators. Teaching online has its own set of limitations and lacks the personal touch that offline education has. However, it has also opened doors to many students, accessing a plethora of information and study courses. Students of all ages and from every nook and corner can learn and grow with online learning.

Furthermore, this education or lifelong learning system is not a new one. Years of research and implementation have resulted in the current distance learning system. Distance education has allowed students with different constraints to pursue education from a distance.

Dr. Madhavi Vivek Dharankar, Associate professor at SNDT Women's University, is a seasoned educator and has played a crucial role in developing distance learning in the country. She shares her insights on the current scenario in education and her vision in an interview conducted by *The Knowledge Review*.

Beginning Years and Career in Education

Dr. Madhavi Dharankar joined as Technical Assistant in the Department of Adult and Continuing Education and Extension, University of Mumbai, in 1995. She, later on, started working as an assistant teacher at S.S. Ajmera High School, Borivali. Her journey in the education space had begun, and she continued teaching and gained varied learning exposure.

Dr. Madhavi had developed a strong foothold in distance education with her extensive tenure of 15 years at Yashwantrao Chavan Maharashtra Open University (YCMOU), Nashik as an Assistant Professor in the School of Education.

Online education has opened up so many possibilities. Interactivity and learner engagement are at the core of any form of education, and these are all the more crucial in online education.

She is currently an Associate Professor in the Department of Educational Technology, SNDT Women's University, Mumbai, where she teaches various subjects, including blended learning, research methodology, open and distance learning, and educational technology.

Inspiration and Role Models

Dr. Madhavi's primary inspiration to get into teaching was her mother, a primary school teacher in Greater Mumbai Municipal Corporation. Her school teachers had also played an important role in breeding the love for teaching. In higher education, Dr. C. G. D'Almeida, her B.Ed College Principal had also played a crucial role in motivating her to become an educator.

A Sneak-Peek into a World-Class University

Dr. Madhavi shares the vision, mission, and core values of SNDT Women's University (SNDTWU) as:

Vision: SNDT Women's University is visualized as a world-class university that continually responds to the changing social realities through developing and applying knowledge and skills. The purpose of such engagement will be to create an inclusive society that promotes and protects dignity, equality, social justice, and human rights for all, with particular emphasis on women's empowerment.

Mission: SNDT Women's University is committed to the cause of women's empowerment through access to higher education. Further, the university is committed to providing a wide range of professional and vocational courses for women to meet changing socio-economic needs, human values, purposeful social responsibility, and achieving excellence with "Quality in every Activity".

Core Value: An Enlightened Woman is a Source of Infinite Strength

Dr. Madhavi says, "SNDTWU has a priority to educate the women so that they find the niche for themselves in the world of work, they build their capacity and also self-employ in this world of competition."

Teaching, in a New Age Way

Dr. Madhavi believes that video may be exploited as a mode of learning and can be a healthy option for Lifelong

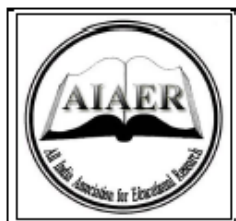

Dr. Madhavi Vivek Dharankar
Associate Professor, Department
of Educational Technology,
SNDT Women's University
